MANAGER REPORTS – COMMENTS AND QUESTIONS:

Recreation Division Manager explained the delay in opening Sutton pool was due to staffing and the water pump maintenance issue. Currently waiting on the state to receive the pump prior to opening. We are looking at approximately five days to open once the pump is installed. Kennicker observed the amount of the community who has been utilizing the Flora pool and the length the lines have been. Tigges mentioned the importance of sharing this information with public as people are questioning what is going on at the pools and the importance of sharing factual information. Kroger also explained the current request for proposal with the third-party system is in the works. We utilize four different software across the department and hoping to switch to one primary software in the near future. More information regarding the software will come in the future.

COMMISSION COMMUNICATIONS/QUESTIONS:

None.
