

# Checking Browser Version

Internet Explorer:

Tools > About Internet Explorer

## Google Chrome:

## Firefox:

<https://support.mozilla.org/en-US/kb/find-what-version-firefox-you-are-using>

**Safari:**

1. Open your Safari browser by clicking on the Safari icon in the dock.
2. Click on Safari in your browser menu, located at the top of your screen.
3. A drop-down menu will now appear. Choose the option labeled About Safari.
1. A dialog box will now appear containing the browser's version number. The first number, located outside of the parenthesis, is the actual version of Safari.
