

**City of Dubuque
Water & Resource Recovery Center
Certified Hauler List**

The following companies have completed a training course, provided by the City of Dubuque, that certifies them to evacuate (pump/clean) grease traps and interceptors in compliance with the requirements of the City of Dubuque's Fats, Oils and Grease (FOG) program (Ordinance No: 42-14). Food Establishments must use one of the listed companies to comply with the requirements of the FOG program unless Self-Cleaning approval has been sought by the FE and approved by the Water & Resource Recovery Center (POTW).
